

# Immediate Taboloman School Needs:

**Project A:** We need benches and desk for the students. Presently, the students sit on bricks held together by cement. The students write on their laps or knees.

## Benches and Desk

**\$4, 250**

1 wood bench to seat 2 students: 50 benches (for 100 students) ---  $50 \times \$50 = \$2,500$

1 wood desk for 2 students: 50 desk (100 students) ---  $50 \times \$35 = \$1,750$

**Project B:** Presently, there are not any bathrooms for students. The school needs two brick built toilets; one for girls and one for boys.

1. **TWO TOILETS:**  $2 \times \$600 =$  **\$1,200**

1. 5mx2.50m brick built toilets for girls

1. 5mx2.50m brick built toilets for boys
